STEM
PreK-5

PROGRAM PILLARS

Active Learning

Hands on
Agency & Choice
Exploration & Wonder
Collaboration
Student led

Scientific Thinking & Behaviors

Mindful observation
Inferential Thinking
Perseverance
Reflection and modification

Real World Application & Engagement

Solving real world problems
Interdisciplinary & transdisciplinary
Connected to classroom learning
Communicating learning to an audience (Creation vs Consumption)
Community & Global communication & connectivity
Engaging with the digital world in a responsible and safe manner
Engaging with the natural world in a responsible and respectful manner
Integrating the arts

Inspiring a new generation of learners who are passionate about STEM through an environment that fosters curiosity, scientific thinking, collaboration and real-world engagement. We empower children with the skills and mindset necessary to become innovative problem-solvers who contribute responsibly to their community.

CURRICULAR CORE

SCIENCE

Engineering & Design
Environmental

PreK-2

Observe Skillfully
Collaborate with Empathy & Flexibility
Foster Imagination & Creativity
Communicate Effectively
Problem Solve Critically
Reflect

3-5

Observe Skillfully
Collaborate with Empathy & Flexibility
Communicate Scholarly
Think Critically & Creatively
Engage with Curiosity
Embody Resilience & Tenacity
Design & Engineer
Engage in Real-World Tasks with Robotics
Reflect & Refine

Collaboration

Growth Mindset

Global Citizenship & Connectivity

Critical Thinking

Digital Safety & Responsibility

Creation/Agency

DIGITAL LITERACY

Digital Citizenship & Online Safety
Digital Fundamentals (Computer/Device)
Platform Usage
Coding
Research
–Consuming & Evaluating Digital Content-
Communication
Creative Expression

PreK-2

Understand Digital Wellbeing
Be a Responsible Global, Local, and Digital Citizen
Expand Self-Expression
Utilize Digital Tools to Capture & Create
Work Independently and Collaboratively
Apply Coding Basics

3-5

Embrace Digital Well-Being and Identity
Make a Difference Locally, Globally, and Digitally
Communicate with Confidence
Construct Knowledge with Respect for Intellectual Property
Create & Innovate with Digital Tools
Think Computationally
Embrace Persistence & Adaptability
Design to Empower

Master Keyboarding & Computer Fundamentals
Develop Intermediate Coding
